THE ULTIMATE STAR WARS CHEAT CODE COLLECTION

by the Editors of *TIPS & TRICKS*

With *Star Wars Episode III: Revenge of the Sith* about to be released on DVD, we thought the time was right to take a look back at all of the *Star Wars* video games that we have enjoyed since Parker Bros. released *Star Wars: The Empire Strikes Back* for the Atari Video Computer System (a.k.a. 2600) in 1982. By our count, 75 *Star Wars* console games have been released in the 23 years hence—and that total doesn't include all of the *Star Wars* games in the arcade, on personal computers or on mobile phones. It also doesn't include upcoming titles like *Star Wars: Battlefront II* for the PS2, Xbox and PSP.

On the following 10 pages you'll find a recap of all the *Star Wars* cheat codes in the *TIPS & TRICKS* archives—over 400 of them, including a few non-*Star Wars* games with cameo appearances by *Star Wars* characters. As the final piece of the *Star Wars* puzzle falls into place at last, plug in your favorite *Star Wars* video game and check out some of the hidden features you may have missed.

Star Wars: The Empire Strikes Back (NES)

Cheat Codes

The following codes will only work in levels where the "Choose Force Power" menu appears when you pause the game. During any of these levels, press the **START** button and continue to hold it down when the Force Power menu appears. While continuing to hold **START**, press and hold **Right** on the D-pad. While continuing to hold **START** + **Right**,

press and hold **SELECT**, **B**, **A** in quick succession and continue to hold each button until all five buttons are held down simultaneously. If you're not quick or precise enough, the game will unpause and you'll have to try again. If the Force Power menu is still on the screen after you've pressed and held all five buttons, you may release the buttons and enter either of the following codes:
Unlock all Force Powers, refill health and Force meter—**B, B, START, A, B, START, B, B, START**
Skip to the next stage—**B, B, START, A, B, START, B, B, SELECT**

Super Star Wars (Super NES)

Sound Test

During any side-scrolling stage, hold **A + B + X + Y** and press **START** to enter the sound test screen. Press **START** again to go back to the game. Return to the sound test by executing the same trick. You'll notice that the words under "Sound Test" have changed; if you repeat this trick several times, you will reveal some of the cheat codes listed below.

Cheat Codes

When the words "Start Game" and "Option Menu" appear after the title screen, quickly enter any of the following codes. Listen for the sound of a Jawa to confirm each code. Important note: These codes may only work the first time the main menu appears after you turn the game on, and you only get one chance to enter each code before the main menu fades out and the demo begins. If you don't hear the confirmation sound, you must turn the power off, remove the cartridge and start over. Also, some codes' effects may not appear if the main menu fades out and the demo begins before you are able to select "Start Game."
View the credits—**A, B, A, B, A, B, A, B**

Start with five continues—**X, B, B, A, Y**

Start with seven continues—**A, B, Y, X, B, B, X, X, Y**

Start with lightsaber—**Y, Y, X, X, A, B, X, A**

Enable stage skip—**A, Y, A, Y, X, B, X, B, X, B** (with this code in place, press **START** on Controller 2 at any time during the game to skip the current stage)

Character select screen appears before each side-scrolling stage—**Y, X, X, X, A, A, A, B, B, Y, Y**

Debug mode—**A, A, A, A, X, B, B, B, Y, X, X, X, X, A, Y, Y, Y, Y, B**
The latter code activates all of the other cheats at once (except for the "view credits" and "extra continues" codes) and also gives you access to the following special functions:

- During any side-scrolling stage, press **L + R** on Controller 2 to call up the "Game Debug Menu," which lets you choose any stage, change characters or weapons or even boost your life counter. (The "Health" option doesn't mean much, since your health meter will always be refilled when you exit the debug menu.)

- During any side-scrolling stage, grab Controller 2, hold **A + B + X + Y** and press **SELECT**. Release the buttons and your character's X and Y coordinates will be displayed on the screen. You'll also be nearly invincible, with the ability to walk through walls and even drop through floors (by pressing **Down** and **B** simultaneously.)

Super Star Wars: The Empire Strikes Back (Super NES)

Sound Test

During any side-scrolling stage, hold **Down + A + B + X + Y** and press **START** to enter the sound test screen. Press **START** again to go back to the game, then return to the sound test by executing the same trick. You'll notice that the words under "Sound Test" have changed; if you repeat this trick several times, you will reveal some of the cheat codes listed below.

Cheat Codes

When the words "Start Game," "Option Menu" and "Password" appear after the title screen, quickly enter any of the following codes. Listen for Darth Vader's voice to confirm each code. Important note: These codes may only work the first time the main menu appears after you turn the game on, and you only get one chance to enter each code before the demo starts. If you don't hear the confirmation sound, you must turn the power off, remove the cartridge and start over. Also, some codes' effects

- Debug Menu—During any side-scrolling stage, press **L + R** on Controller 2 to call up the "Game Debug Menu," which lets you choose any stage, change weapons or even boost your life counter. (The "Health" option doesn't mean much, since your health meter will always be refilled when you exit the debug menu.)
- Invincibility/Map Mode—During any side-scrolling stage, grab Controller 2, hold **A + B + X + Y** and press **SELECT**. Release the buttons and your character's X and Y coordinates will be displayed on the screen. You'll also be nearly invincible, with the ability to walk through walls and even drop through floors (by pressing **Down** and **B** simultaneously.)

Star Wars: Rebel Assault (Sega CD)

Cheat Mode

As the LucasArts logo is spinning onto the screen at the beginning of the game, press **Up + A**, **Down + A**, **Up + A**, **Up + A**, **Left + A**, **Right + A**. Repeat the code until you hear a bell ring and a chorus of voices droning, "LucasArts!" With this

cheat code in place, you can skip to the next stage at any time during the game by pressing **C**. Also, the option menu that appears when you pause the game will have two new options, "Restore Health" and "Remove Health." Highlight "Restore Health" and press **A** to refill your energy meter at any time.

Star Wars: Dark Forces (PlayStation)

At any time during gameplay—not while paused—carefully press **Left**, **○**, **X**, **Right**, **○**, **X**, **Down**, **○**, **X**. A cheat menu will appear that allows you to max out your health or weapons, become invincible, see the full map and more.

Stage Select

Enter X 7 P ! 4 5 Q X 3 9 at the Enter Passcode screen to access a stage select menu. When you begin the game, you'll also have all the weapons.

Star Wars: Shadows of the Empire (Nintendo 64)

Cheat Mode

When prompted to enter your name, enter " _Wampa_ _Stompa" or use the "Rename" option to change your name to this. Note that there's a space before "Wampa" and two

spaces before "Stompa," and that the "W" and "S" are the only letters that are capitalized. Now start the game and enter any stage. During the game, press **START** to pause; when the pause menu appears, hold **L + R + Z + C** + **C** + **C** + **C** + **Left** on the D-pad. While continuing to hold those buttons down, point the analog joystick slightly to the left—not all the way to the left—and hold it there until you hear a sound. After you hear the sound, point the analog joystick slightly to the right—not all the way to the right—and hold it there until you hear another sound. Repeat the process with the analog stick to the left again, then again to the right, and once more to the left; you should hear a sound to confirm at each step, and at the end of the procedure, a cheat menu will appear at the top of the screen. (Now you can release all of the buttons!) Use **L** and **R** to scroll through the different cheat codes and press **A**, **B** or **START** to activate the one you wish to use as follows:

- Get all stuff (weapons, items)
- Invincibility
- 50 lives
- Sleepy villains (press **Up** on the analog joystick to change the message to "Villains are sleepy," now all of your enemies are frozen in place and won't attack you. Press **Down** to deactivate.)
- Kill Dash
- Teleport (to another location in the current stage)
- (Skip to) Next level
- (Restart) This Level
- (Return to) Previous Level
- Wall Ghost (Press **Up** on the analog joystick to turn this option "on," now you can walk into walls and go right through locked doors. Press **Down** to deactivate.)

You'll notice the new item at the pause menu called "Game Secrets;" check this out to find some additional cheats that you can use in certain stages; one of them gives you a fully three-dimensional mapping system. Finally, with this cheat code in place, if you choose "Quit" from the pause menu and return to the stage-select menu, you'll find that all of the game's stages have been unlocked.

Play as X-Wing or TIE Fighter

Play through the Skyhook Battle stage until you reach the Skyhook station. Once you're given control of the Outrider, change the camera angle until you have a view of the Outrider from behind. Next, press **START** to pause, then hold **Left + L + R + Z + C** + **C** + **C** + **C**; with all of those buttons held down, press **Up** and **Down** on the joystick to change your ship to an X-Wing or Imperial TIE Fighter.

Control Enemy Characters & Vehicles

Enter your name as " _Wampa_ _Stompa" or use the "Rename" option to change your name to this, with the exact specifications as described above under "Cheat Mode." Now start the game and press **START** to pause; when the pause menu appears, choose "Options" and set the controls to "Traditional." Now you can take control of other characters in the game as follows:

- In the "Battle of Hoth" stage, play until the AT-STs appear, then hold **C** and press **Up**, then press **C** repeatedly until you see an over-the-shoulder view of an AT-ST. Press **Left** or **Right** on the D-pad to steer it or hold **Up** to fire its primary weapon. You can still control your snowspeeder with the analog joystick while you're in AT-ST mode (if you can see it!) Once the code is in place, press **C** to toggle between the snowspeeder and the AT-ST.
- In the "Escape from Echo Base" stage, hold **C** and press **Left** on the D-pad; you'll be controlling one of the Wampa creatures that are being held in cages on this level. (Note: This code won't work at the "Easy" difficulty level because the first Wampa cage will be empty.) You can still control Dash with the analog stick while playing as the Wampa. Use the D-pad to control the Wampa; hold **Down** to attack. Once the code is in place, press **C** to switch between Dash and the Wampa.
- Also in the "Escape from Echo Base" stage, hold **C** and press **Right** on the D-pad; you'll be controlling an Imperial Snowtrooper. You can still control Dash with the analog stick while playing as the Snowtrooper. Use the D-pad to control the Snowtrooper; hold **Down** to fire. Once the code is in place, press **C** to switch between Dash and the Snowtrooper.
- In the "Gall Spaceport" stage, hold **C** and press **Left** on the D-pad to control a Wampa or **Right** on the D-pad to control an Imperial Stormtrooper; these both work as described under "Escape From Echo Base" above.
- In the "Imperial Freighter Suprosa" stage, hold **C** and press **Right** on the D-pad to control a Stormtrooper as described above.
- In the "Sewers of Imperial City" and "Xizor's Palace" stages, hold **C** and press **Right** on the D-pad to control one of Prince Xizor's armored guards.

See the Ending

Enter your name as " _Credits" (the first character is a space) or use the "Rename" option to change your name to this. When you choose a level and start the game, you'll go directly to the game's ending and credit sequence. Note: When entering the name, be sure that the "C" is the only letter that's capitalized. After the credits begin to repeat, press **START** to return to the title screen; when it appears, point the analog joystick in the **Up/Right** position to see a photo of the game's creators.

Wampa Noises

Enter your name as "R_Testers_ROCK" or use the "Rename" option to change your name to this. Now you can hear Wampa sounds whenever you access any menu option.

See Developers' Heads

Choose "Passcodes" from the Options menu. Enter "HARDROCK", "BERGLOWE" or "WUTZI" and select "Enter Code." If you start a game and then return to the title screen, you'll see that Luke's head will be replaced by one of the developer's heads!

Debug Menu

At the main menu, move the cursor to "Options" and press **△, ○, Left, L1, R2, □, ○, Left**. You'll hear a special sound effect if the code was entered correctly. To access the Debug Menu, hold **L1 + SELECT** and press **△**.

Star Wars Episode I Racer (Nintendo 64)

Cheat Menu

Choose "Tournament" from the main menu. When the "Select Player" screen appears, choose any "empty" slot. When the "Please Enter Your Initials" screen appears,

enter the passcode "RRTANGENTABACUS" by holding the **Z** button and pressing **L** to select each letter. Note that this procedure is not the same as choosing letters with the **A** button; if you hold **Z** and select letters with **L**, your code will appear in much smaller letters in the lower left corner of the screen. Also, you must complete the code by continuing to hold **Z** as you highlight "END" and press **L**; the letters "OK" will appear in the corner of the screen if you've entered a code properly. With this code in place, release **Z** and enter your initials. Next, start a race and press **START** to pause. At the pause menu, press **Left, Down, Right, Up** on the D-pad; a new option called "Game Cheats" will appear. At the "Game Cheats" menu, use the joystick and D-pad to highlight the different options and change their parameters. You can make yourself invincible or "mirror" the track at this screen or even adjust the parameters that the game uses to determine when a collision will destroy your vehicle. Highlight "Edit Vehicle Stats" and press **A** to access another menu that allows you to tweak the performance of every vehicle in the current race. Also, if you set the "Debug Level" option to anything but 0, you can also use the

following commands at any time during a race:

- Hold **Up** on the D-pad to fast-forward
- Hold **Down** on the D-pad to reverse at high speed
- Press **Right** on the D-pad to self-destruct
- Hold **Left** on the D-pad to make your vehicle invisible
- Hold **Z + Left** on the D-pad to see an x-ray view of the current screen (this also works at the menu screens after and between races)

Special Control Scheme

Using the procedure described above under "Cheat Menu", enter the passcode "RRDUAL" at the "Please Enter Your Initials" screen and remember to choose "END" with the **Z** and **L** buttons to get the "OK" signal. This code changes the game to allow you to use the analog joysticks on two controllers to drive your pod racer. Pressing **Up** on the joystick propels you forward, press **Down** to steer. The controller ports are assigned as follows:

Player 1, left pod: Controller 1

Player 1, right pod: Controller 3

Player 2, left pod: Controller 2

Player 2, right pod: Controller 4

Note that the controls may not work properly if you plug the extra controller(s) in after the game has already been turned on. For best results, make sure you have all of the necessary controllers connected to the N64 before you turn the machine on.

BALDUR'S GATE: DARK ALLIANCE II

Item Duplication Trick

You'll need two controllers for this trick. Pause the game and select the "Change Players" menu, then select a new character (preferably Dorn, since he can carry more). Drop whichever items you want to duplicate and have the second player pick them up. Next, save your game and transfer the items back to your primary character. Enter the "Change Players" menu again and import the second character from the fresh save. That character will have the items that you just dropped as well, so you can sell off any duplicates, have them both equip the same item or break items down at the shop and recover gems. With this trick, you can easily build up your inventory of gems and items by duplicating them and gain massive amounts of gold by selling the duplicate items.

Invincibility/Level Warp

At any time during gameplay, hold L1 + R1 + △ + ○ + × + □ and press START to bring up the cheat menu. You can toggle invincibility on and off and warp to any location from here, even places that you haven't been to previously. You can even warp to levels that you are not supposed to be able to go to; for example, you can go to Zarad's study even when you're not playing as Ysuran.

Level-Up Cheat

At any time during gameplay, hold L1 + R1 + △ + ○ + × + □ and press the L2 button. This cheat automatically levels your character up to level 10, gives you 45 Feat points and gives your character 500,000 gold. Be careful when your character passes level 10, since the code will reset all of your character's stats back to level 10.

Secret Cheat Codes

Enter the following cheat codes at any time during the game (but not while paused). Each time you enter a code successfully, a message will appear in the upper left corner of the screen to confirm. Note: Most of the codes cannot be deactivated once you've turned them on; you must reset the PlayStation 2 in order to restore the game to normal. Do not save your game after entering codes; if you do, the codes may be permanently activated in your save file. To keep your saved game from being affected, remove your memory card before entering any cheat codes and leave it out until after you turn off the PS2. Also, some codes may cause unpredictable results which may cause the game to "crash," especially if you have several codes in effect at once. Codes that modify the appearance or behavior of vehicles or pedestrians will usually not affect those that are already in the immediate vicinity; you'll see the effects when new vehicles or pedestrians appear. The codes that cause vehicles to appear may not work if you're too far from a street or other area where vehicles are allowed to drive.

HEADHUNTER

Star Dispenser

In the LEILA office is a dispenser marked with a star; inside are all the weapons in the game, plus unlimited ammo for each one. You can't access it during your first time through the game. However, after you finish the game and the credits roll, a prompt will appear asking you to save your game; doing so will create a new save file called "Headhunter V2." Loading this file will put you back at the start of the game, but the difficulty will be increased. The star dispenser will be unlocked when you play Headhunter V2, provided you have satisfied certain conditions:

- At the same time or before you earn your AAA License, beat Hank's record times in all 16 VR missions.

- During the same game that you accomplished the first condition, complete the game once.

Once you leave the LEILA office after obtaining your AAA License, you'll never be able to go back to it again. If you haven't obtained the record for all the VR missions by that time, you won't get access to the star dispenser after completing the game. Note: Completing VR missions by selecting "LEILA" at the main menu does not count; all of the records must be obtained from the VR simulator from within the LEILA office.

Item Duplication Trick

You'll need two controllers for this trick. Pause the game and select the "Change Players" menu, then select a new character (preferably Dorn, since he can carry more). Drop whichever items you want to duplicate and have the second player pick them up. Next, save your game and transfer the items back to your primary character. Enter the "Change Players" menu again and import the second character from the fresh save. That character will have the items that you just dropped as well, so you can sell off any duplicates, have them both equip the same items or break items down at the shop and recover gems. With this trick, you can easily build up your inventory of gems and items by duplicating them and gain massive amounts of gold by selling the duplicate items.

your character 500,000 gold. Be careful when your character passes level 10, since the code will reset all of your character's stats back to level 10.

GRAND THEFT AUTO: VICE CITY

Secret Cheat Codes

Enter the following cheat codes at any time during the game (but not while paused). Each time you enter a code successfully, a message will appear in the upper left corner of the screen to confirm. Note: Most of the codes cannot be deactivated once you've turned them on; you must reset the Xbox in order to restore the game to normal. Do not save your game after entering codes; if you do, the codes may be permanently activated in your save file. It's a good idea to keep a copy of your save file on a memory card; this way, you'll have a backup in case anything happens to

the *GTA: Vice City* save on your Xbox hard drive. Note: Some codes may cause unpredictable results which may cause the game to "crash," especially if you have several codes in effect at once. Codes that modify the appearance or behavior of vehicles or pedestrians will usually not affect those that are already in the immediate vicinity; you'll see the effects when new vehicles or pedestrians appear. The codes that cause vehicles to appear may not work if you're too far from a street or other area where vehicles are allowed to drive.

Note: After unlocking a player's alternate gear, you must enter the "Alternate Gear" code at the "today's episode" screen (as explained under "Match-Up Screen Codes") to dress that player in his alternate gear.

Match-Up Screen Codes

Enter any of the following codes by pressing the Playground, Alley-Oop and Shoot buttons the number of times indicated at the "today's episode" screen that appears just before a match in most game modes. The numbers shown in each code represent the number of times you must press each button before pressing a direction on the D-pad or left analog stick to "lock in" the code. Each time you press a button, you'll see the corresponding symbol change in one of the three boxes next to your player's photo according to the following legend:

1st number/Top box—Y
2nd number/Middle box—B
3rd number/bottom box—X
For example, to enter the "Unlimited Juice" code (7-6-3), press Y seven times, press B six times, press X three times, then press **Up, Down, Left or Right** on the D-pad or analog stick. You'll see a confirmation message appear if the code has been entered correctly. You have a very limited time to enter codes, so be quick. Most of the codes do not work when playing online. Note: The "Alternate Gear" code will only work after you have unlocked the alternate gear for the player you've chosen.

STEEL BATTALION

Unlock Free Mission Mode

Note: This code requires the player to set the Tuner Dial on the *Steel Battalion* controller to specific positions. Unfortunately, the settings on the Tuner Dial are not labeled. For the purposes of explaining the code, we will refer to the individual hash marks around the Tuner Dial as numbers from 0 through 12, starting from the extreme left position. In other words, 0 is straight left, 4 is straight up, 8 is straight right and 12 is straight down.

At the title screen, move the Tuner Dial to the following positions, one at a time, and pause for a second or two at each number position: 1, 9, 7, 9, 0, 9, 0, 6. In other words, set the Tuner Dial in the 1 position, wait a moment, turn the dial clockwise for eight "clicks" to the 9 position, wait a moment, turn the dial counter-clockwise for two "clicks" to the 7 position, etc. When you've entered the code correctly, you'll hear a sound effect to confirm. Now you can select "Free Mission" mode from the main menu, which allows you to play any mission at any difficulty setting with all of the VTs unlocked.

Money Tree

Search your town for a glowing spot on the ground; you'll find one per day. Dig up the glowing spot with your shovel to find bells. Notice that the hole is still glowing after you remove the bag of money. If you bury some bells in that spot, it may grow into a "money tree" that drops bags of bells like fruit. (The bells won't reappear after a few days the way fruit does.) Try different denominations for different results.

Get the Golden Shovel

Buy an extra shovel from Tom Nook and bury it in the glowing spot (see above) before you leave the acre it's in. If the spot is not too close to a wall, bush or other obstacle, a special golden tree may appear. Within a few days, it may bear fruit in the form of a special golden shovel. The golden shovel can be used to dig up bells from random spots all over your town. You can also use it to find rare items on the island by using the following method: Bury unwanted furniture on the island, then leave the golden shovel there along with various kinds of fruit. Playing on the Game Boy Advance, feed your islander fruit until he or she has a very happy, squinting smile, then have the islander dig up the furniture with the golden shovel. He or she will replace the furniture items with rare "island" items or even NES games like *Baseball* or *Wario's Woods*. Now return to the island on the GameCube to retrieve your golden shovel and dig up the rare items the islander buried.

Get the Golden Axe

To get a special golden axe which never breaks, you must maintain what the wishing well considers to be a "perfect" town as determined by the following criteria:

1) Pull all of the weeds in your entire town and pick up all of the trash from the ground.

2) Plant and/or chop down trees until there are between 12 and 14 trees in every acre where it's possible to do so.

3) Plant lots of flowers (flowers can reverse the negative effects of weeds that you may have missed).

Once you've done all this, speak to the wishing well and ask it "How are things?" If it says "Everything is perfect! [Town name] is a very liveable place," you must then maintain the town for two full weeks without any lapses in the "perfect" rating. The next player who visits the wishing well after the 14th day will be given a golden axe by the well spirit. If you get any other message from the wishing well, it's probably because you didn't count the trees correctly. To help you determine which acre each tree is in, pay attention to the invisible borderline that causes the screen to scroll into the next acre when you cross it.

RESIDENT EVIL

Special Weapon

If you beat the game in Normal Mode in under five hours, you will start with the Samurai Edge Barry Version gun in your inventory when you play again by choosing the "Once Again..." option. The Samurai Edge is similar to the regular Handgun, except it has infinite bullets and fires three rounds consecutively when you pull the trigger.

Infinite Rocket Launcher

If you beat the game in Normal Mode in under three hours, you will start with the Infinite Rocket Launcher in your inventory when you play again by choosing "Once Again..." at the main menu.

Grenade Launcher Trick

(Note: This trick will only work with Jill. Also, it's possible that using this trick will adversely affect the quantities of other items in your inventory, so try this at your own risk.) With the Grenade Launcher and at least one spare set of unequipped grenade shells of any kind in your inventory, equip the Grenade Launcher and find an item box. When you open the item box, immediately select the set of grenade shells in your inventory and place it in the very first slot in the item box. (The first slot of the item box is selected by default when you first open the box—it usually contains the First Aid Spray when you start the game or the Closet Key if you've already cleared the game once.) Now select the grenade shells occupying the first slot in the item box and combine the shells from the item box directly to your equipped Grenade Launcher. The number of shells displayed under the Grenade Launcher will become corrupted. Now exit the item box; Jill will have 240 shells in her Grenade Launcher when you check her inventory. If you still have unequipped Grenade Launcher ammo in the item box, stay in the item box screen and swap out the grenade shells again. You'll see the 496 shells back in the item box. Now move the 496 shells from the item box into an empty slot in your inventory and exit out of the item box. You'll still have the spare set of 496 shells—and you'll also have 240 shells in the Grenade Launcher if you pulled them from the first item spot the second time you combined them. If you have more than one set of unequipped shells, you can keep swapping them out between the first slot of the item box and the equipped Grenade Launcher to create more shells at any time.

- System Reset—Press **START** to pause the game, then press **B** to reset to the title screen.
- Slow-Motion—Press **START** to pause, then hold the **A** button to play in slow motion. If you tap the **X** button while paused, you'll advance the action one "frame" at a time.
- Debug Mode—When the name of the current zone appears in big letters at the start of a stage, press the **B** button and hold it down until Sonic appears. Your "Score" indicator will be replaced by a bunch of hexadecimal numbers. Now you're invincible; the only thing that can kill you is if you fall off the screen. Press **A** during gameplay to change Sonic a different object from the game; while Sonic is a different object, you can move the object anywhere in the current stage with the D-pad. Also, when in "object" mode, press **B** to change to a different object, **X** to place a copy of that object on the screen or **A** to change back into Sonic and continue play. Use this feature to modify the game's stages or even "draw" hundreds of gold rings on the screen; when you change back into Sonic you can pick them all up.

Sonic the Hedgehog 2: Stage Select

You must press the buttons at a consistent speed, starting at the exact moment when the screen turns black; you should finish entering the code just a split-second before the screen turns pure white. Use a very light touch on the D-pad or analog stick and press **Up** and **Down** evenly, making sure not to touch the diagonals. If you don't hear the chime, just press **Z** and pick "Game Title" to try again. Once you've done it right, press **Up** or **Down** at the title screen menu until you see a new item called "Sound Test"; this gives you a stage-select and sound test menu. The list even includes the names of zones that were taken out of the game before it was released. You can't play these stages, but you can hear the music from them with the Sound Test option. With the code in place, you have access to the following features:

- System Reset—Press **START** to pause the game, then press **B** to reset to the title screen.

At the stage-select menu (see above), highlight the name of any stage, hold the **B** button and press **START**; don't release **B** until the stage begins. See the codes for the original *Sonic the Hedgehog* above to find out how the debug mode works; the only difference is that you don't get invincibility when you enter the Debug Mode in *Sonic 3*. However, if you get killed when playing in Debug Mode, just press the **A** button quickly before Sonic falls off the screen; this will change him into an object and freeze the action. Now just use the D-pad to move the object to a safe place and press **A** to change back into a healthy Sonic.

VIEWTIFUL JOE 2

How to Unlock the 36 Chambers

1. Defeat Drill Sergeant Big John in Reel 1, Act IV.
2. In Reel 5, Act I, when you're fighting ninjas on the slippery ice on the cliffs (after you've launched up to the cliffs using the remote-controlled platform), finish the scene with at least five hearts.
3. Get killed by the enemies that look like paper bags.
4. Finish any scene with only one heart remaining.
5. Pass Reel 2, Act III.
6. Pass Chamber 1.

7. Collect all the V-Reels from every act in any film.
8. Get a "Game Over" and don't reset.

9. Pass Reel 3, Act I.

10. Pass Chamber 1 and enter a bonus room in Reel 4, Act II. The bonus room is in the house where the switches move the rooms in a clockwise direction. When you place the three objects (teardrop, sword and mirror) into the matching scrolls, a door opens on the upper right. However, if you hit the switch in this room instead of going through the door, you'll end up on the bottom level, and when you go through the open space on the right, you'll enter a bonus area filled with ninjas.

11. Pass Chamber 2 with at least an "A" rating.

12. Earn a "V" time ranking in five consecutive scenes.

13. Have only one heart left from beginning to end in any scene.

14. Pass Reel 4, Act II.

15. Earn a "Rainbow V" ranking (get a "V" for V-Points, Defense and Time) during the UFO fight in Reel 4, Act I.

16. Finish the last scene in Reel 2, Act I without using any VFX powers.

17. Pass Chamber 8.

18. Pass Chamber 9 and buy the Sliding power-up.

19. Pass the miniboss fight against Big John in Reel 3, Act II with an "A" rank or higher.

20. Pass the kitchen scene in Reel 1, Act III, with a "Rainbow V" ranking.

21. Pass Chambers 3 and 12.

22. Pass Chamber 13.

23. Pass Reel 7, Act III and have more than 200,000 Viewtifuls saved up.

24. Get Joe thrown out of the women's restroom 10 times in a row in Reel 3, Act I.

25. After finishing the scene where you start the gears turning in Reel 3, Act II, don't use any VFX until the next "Just Go For It!" scene starts.

26. Pass Chamber 17 and finish Story Mode.

27. Pass Chamber 18 and buy the Redhot Kick power-up.

28. Pass the challenging button scene in Reel 7, Act I where Silvia has to use her Replay VFX, with at least 30 seconds to spare.

29. Collect every V-Reel in Reel 5, Act I.

30. Earn a "Rainbow V" in five consecutive scenes. They can span across Acts, so if you get a "Rainbow V" in each of the first four scenes in Reel 1, Act I, you'll still get the chamber to unlock if your first grade in Reel I, Act II is also a "Rainbow V."

31. Perform the Ukemi 10 times in a row in Reel 7, Act I. When one of the weaker enemies hits you, if you use VFX Zoom In right before your body hits the ground, you'll recover without taking damage.

32. Pass Chamber 23, and also attain an overall rank of "Rainbow V" for any of the scenes during the following acts: Reel 1, Act III; Reel 2, Act III; Reel 3, Act III; Reel 4, Act II; Reel 5, Act III

33. Pass Chamber 24.

34. Pass Reel 1, Act IV without picking up any V-Reels.

35. Pass Story Mode on Adults difficulty.

36. Pass Chamber 27 and Story Mode.

37. This is a secret chamber that unlocks if you complete Chamber 6, finish the Story Mode and earn an overall rank of "D'oh" in three consecutive scenes. It's harder to earn a "D'oh" than you think, since the game is relatively forgiving when ranking you on defense. Buy up a bunch of "Take 2" power-ups, then play through the first three scenes in Reel 1, Act I. Let the enemies kill you at least one time during each scene and you'll get a "D'oh" for defense.

If you want to minimize V-points, don't break anything, and kill enemies with one VFX Zoom In punch. Take as long as you want to pass; getting a "D'oh" time ranking is the easiest part.
